

FEEDBACK OSCE KETERAMPILAN MEDIK SEMESTER 3 TA 2024/2025 TA 2024/2025

23711173 - Muhammad Hamza Mubarak

STATION	FEEDBACK
BSO	Sudah konfirmasi identitas pasien dengan baik dan memastikan yang sakit siapa // Edukasi BSO Tetes mata sudah OK // Edukasi BSO suppositoria sudah OK
GYN	You don't have to put the object glasses in the sterile area, just put them in the another table. After fixation of sample, please allow spray-fixed slide to dry completely before shipping to a laboratory.
INJEKSI	sudah baik, namunsaat membuang udara sebaiknya jarum dan kondisi tertutup, belum aspirasi belum fiksasi, saat IM, yang sc sudah ok.
RUMPLE LEED	please explain the procedure in simple way, no need gloves, just wash ur hands before and after, choose the better position for the patient to make him comfortable. please learn to measure systolic and diastolic BP again, you need to palpate brachial or radial arteries first. place the manset 2,5 above cubital fossa. wait for 2 mins after the manset was taken off, then examine the ptechie with a penlight/torch. please practice to speak Indonesian bahasa more often
VENA	Secara umum sudah cukup bagus, pemasangan tourniquete hrs benar tdk terlalu kendur, pastikan saat memasukkan jarum posisi stabil, shg darah dapat terambil secara optimal, kalau sdh dipakai tidak bisa diulang, harus ganti, jangan lupa memberi label. Tingkatkan komunikasinya. Jangan lupa untuk mwmbalikan label
