

FEEDBACK OSCE KETERAMPILAN MEDIK SEMESTER 3 TA 2024/2025 TA 2024/2025

23711174 - Reem Mohammed Hassan Arada

STATION	FEEDBACK
BSO	Identitas pasien sudah dikonfirmasi dengan baik // Edukasi BSO Tetes mata sudah OK // Edukasi BSO Suppositoria sudah OK // Awalnya mau memberikan suppositoria untuk bapaknya, tetapi sudah konfirmasi ulang pasien nya, sipp //
GYN	after the fixation of samples, you must leave the spray-fixed slide to dry , then you can keep them in the plastic bag.
INJEKSI	sudah baik, namun, saat menyuntikkan lakukan fiksasi jarum supaya saat mendorong dan memasukkan obat jarum tidak berpindah, saat membuang g udara sebaiknya jarum dam kondisi tertutup
RUMPLE LEED	please explain the procedure in simple way, example: to know the function of the blood vessel and platelets. please learn to measure systolic and diastolic BP again, you need to palpate brachial or radial arteries first. place the manset 2,5 above cubital fossa. make sure the cuff is closed so u can maintain the BP at constant state. it is difficult to achieve diastolic BP is 88 in manometer, usually it only can detect at 85 or 80 or 90 onstead of 88.
VENA	Secara umum sudah bagus, pilih vena yg paling tepat, siapakan kapas lbh dekat sehingga tidak kesulitan saat mengambil
